Student Laptop Onboarding for Windows 8.1 devices
Important

WARNING!! This computer is part of the Los Angeles Unified School District (LAUSD) computer networks. It is for authorized use only. Any user's activities in connection with the LAUSD computer networks, including the creation, transfer, upload or download of computer files, website browsing, email use and/or other forms of electronic communications, are subject to monitoring and review at all times to ensure proper functioning of equipment and systems, including security devices and systems, to prevent unauthorized use or violations of statutes and Board policies, to deter criminal activity, and/or for other, similar purposes. If monitoring of this or any other LAUSD computer network reveals possible evidence of user misuse and/or violations of Board policy or law, including criminal statutes, this evidence and any other related information, including identification information about the user, may be provided to LAUSD administrators, law enforcement officials [or any other person], as appropriate. Use of this computer system by any user, whether authorized or unauthorized constitutes a consent to monitoring at all times and consent to the disclosure of user identification in the event of user misuse and/or violations of Board policy or law, including criminal statutes. Users shall have no right to or expectation of privacy regarding any electronic communications or use of the LAUSD computer networks.

[OK]

Turn on the laptop and select “OK”
Use your finger to swipe up
That's not your name? Don’t worry, that was the account used to set up your laptop.
Select “Other user”
Enter your **username**, **password**, then select the `ramon.cortines@lausd.net` **username** or **email address**.
Wait! - The device will set up now.

This may take several minutes -- but just this time.
Do not restart the device.
If a dialogue box pops up, select “Cancel”
Select the “Network Onboard” icon. It may be in a different place on your desktop.
Select the “Register Device”
Login below using your LAUSD credentials.

Enter your user name @mymail.lausd.net, password, and select "Log In"
In order to connect to this network, your device must be configured for enhanced security. Aruba Networks' QuickConnect application will guide you through the configuration process.

To apply the network profile, you need to download and start the QuickConnect application.

Start QuickConnect
Download and start the QuickConnect network configuration application.

QuickConnect will now apply the network profile to your device.

Select “Start QuickConnect”
Select “Run”
Select “Next”
Select “Yes”
Select “Connect”
Select “Close”
Swipe your finger from the right edge of the screen. Select \(\text{Sleep}\), Select \(\text{Shut down}\), Select \(\text{Restart}\).
1. Swap your laptop with a nearby student.
2. If it is not on the login screen, restart the laptop.
3. Select “Other User”.
4. Try to login using your username and password.
5. You should get a yellow message telling you that you could not access the network.
6. Raise your hand if you can log into your neighbor’s laptop.
